By Dolores Ashcroft-Nowicki

REVIEW BY [Suzie Housley](#)

The highest education is that which does not merely give us information but makes our life in harmony with all existence.

~ Rabindranath Tagore

Knowledge feeds the inner soul, for it allows the unknown to be discovered. Throughout our lives invisible forces exist. Each one of us has the ability to channel into these unseen powers that can help change our destiny.

Magic is known as the ability to create change by merging your own will with the greater consciousness of the universe. Its roots can be traced as far back as ancient Egypt. For centuries it has traveled the globe and has been practiced and studied by a vast array of people and cultures.

To properly appreciate all that the craft has to offer, it is important to realize that you can't learn everything in one day. Much commitment, dedication, and patience must be used as an individual starts the journey to discover all the mysteries the Western Tradition holds.

A once-in-a-lifetime opportunity awaits you in Dolores Ashcroft-Nowicki's *Your Unseen Power: Real Training in Western Magic*. This home study course is by far the best I have seen in all of my eight years as a book reviewer. Users will have the ability to learn from one of the most respected names in the occult world. Ms. Ashcroft-Nowicki is the author of seventeen well-known books on the study of the occult; she is also the founder and director of The Servants of Light School in England. From her impressive list of accomplishments she is now able to share her expert knowledge through this home-study course.

Ms. Ashcroft-Nowicki starts her students off learning the basics and history of this sacred science. As with any course that you may have completed in a traditional school setting she assigns homework that must be completed before you are able to continue to the next phase in the course. This approach allows her students to develop a strong foundation that can be built upon for years to come.

She takes such great care in explaining each phase of this course that you will find your brain quickly absorbing each of the lessons.

Since the first day of receiving *Your Unseen Power: Real Training in Western Magic* there has not been a day that has gone by that I haven't discovered something new and exciting. I have the highest respect for my Instructor; in the short time she has been instructing me in Western magic I feel as though I have grown both spiritually and mentally. I wish that I had the ability to personally thank her for all the knowledge she has instilled in me in the short time I have been introduced to her work. Many times I caught myself feeling as though she was right there providing one on one attention. Truly this course is the ultimate form of self-realization.

Those who wish to explore all that magic has to offer should definitely make this home study course the first item they purchase. This is a very unique way to learn from the best in the field. I was totally amazed at the volume of material this course contains. It truly is a very enlightening experience that has already changed the way I view the world. Very highly recommended.
